## CARE AND MAINTENANCE

- \* To extend the life of your fire pit, clean the bowl after each use and cover the unit to protect it from the elements.
- \* To maintain the coating color, cover the bottom of the fire bowl with small stones or sandstones before each use.
- \* To maintain the finish, clean the surface by using a soft cloth. Do not use a metal brush.
- \* If metal is scratched, the fire pit may need touch up painting. Ask your local paint store representative which paint is best for your type of fire pit. To prevent rusting, coat the exposed surface immediately.
- \* Although fire pits in general do well in adverse weather conditions, store it in an enclosed structure during the off-season.
- \* Don't wipe the real slate top with acidic material. Coat the surface of natural slate with floor wax or liquid wax to protect it from corrosion, oxidation and moisture.
