Installation Instructions

CADET™

Single Control Centerset Lavatory Faucet with Speed Connect™ Drain

Congratulations on purchasing your American Standard faucet with the Speed Connect Drain, a feature found only on American Standard faucets.

Speed Connect Drain*

- 1/3 of the parts, installs in 1/3 of the time
- No tools needed
- Never needs adjustment
- Guaranteed to seal properly the first time, every time.

*Your new American Standard faucet is designed to work only with the Speed Connect Drain. Helpful tips for removing your current drain can be found in the Troubleshooting section of these instructions.

To ensure that your installation proceeds smoothly-please read these instructions carefully before you begin.

Certified to comply with ANSI A112.18.1
M968797 Rev. 1.8

Recommended tools

Screwdriver

Channel Locks

Adjustable Wrench

Plumbers' Putty or Caulking

Tubing Cutter

1

INSTALL FAUCET

CAUTION

Turn off hot and cold water supplies before beginning.

- Apply a bead of putty along the edge of the underside of the FAUCET (1).
- Insert FAUCET (1) and CABLE CONNECTOR (2) through center hole of mounting surface. Fig. A.
- From under side of mounting surface thread the two MOUNTING NUTS (3) onto FAUCET SHANKS (4). Fig. B.
- Center FAUCET (1) and hand tighten MOUNTING NUTS (3) to secure FAUCET (1).

Fig. A.

Fig. B.

2 INSTALL POP-UP DRAIN

- Remove CLEAR PLASTIC COVER (1). Remove CARDBOARD SPACER (2) from under DRAIN POP-UP (3). Fig. A.

- Drop DRAIN BODY (4) through sink drain hole. Make sure WHITE FOAM GASKET (5) is under flange of DRAIN BODY (4). Fig. B.

Note: No plumber's putty or caulk is required.

- The CABLE ATTACHMENT POINT (6) must face towards the rear of the SINK. Fig. B.

3 INSTALL BLACK GASKET

- Install BLACK CONE GASKET (1) onto DRAIN BODY (2) from below.

Note: The flat side of the BLACK CONE GASKET (1) must face down.

4 INSTALL GRAY LOCKNUT

- Install GRAY LOCKNUT (1) onto DRAIN BODY (2) from below SINK. Fig. A.

Note: The flat side of the GRAY LOCKNUT (1) must face up.

- Tighten firmly by hand. No tools are required. Check DRAIN FLANGE in SINK to ensure that WHITE FOAM GASKET (3) is fully compressed and not visible. Fig. B.

5 POP-UP KNOB

- POP-UP KNOB (1) must be fully down.

M968797 Rev. 1.8

6 ATTACH CABLE CONNECTOR

- Thread CABLE CONNECTOR (1) clockwise onto DRAIN BODY CONNECTION (2) and hand tighten. Fig. A.

Your new POP-UP DRAIN installation is now complete. Fig. B.

Note: Tailpiece on pop-up drain is 1-1/4" O.D. Fig. B.

7 CHECK OPERATION OF POP-UP

- Operate LIFT KNOB (1) to verify that STOPPER (2) opens and closes.

Note: If STOPPER (2) does not open and close properly then refer to the "troubleshooting section" of these instructions.

8 MAKE WATER SUPPLY AND WASTE CONNECTIONS

NOTE: FLEXIBLE SUPPLIES OR BULL-NOSE RISERS NOT INCLUDED AND MUST BE PURCHASED SEPARATELY.

- Connect water supply to INLET SHANKS (1) with 1/2" IPS FLEXIBLE SUPPLIES (2) or 3/8" O.D. BULL-NOSE RISERS (3). Use adjustable wrench to tighten connections. Do not over tighten. Be careful not to kink copper supply when bending. Use tubing cutter to cut to proper length.
- Connect HOT water supply to inlet of left SHANK and COLD water supply to right SHANK using sealant, appropriate connectors, and COUPLING NUTS.
- Connect 1-1/4" O.D. TAILPIECE (4) on POP-UP DRAIN to "p" trap.

M968797 Rev. 1.8

9 TEST INSTALLED FITTING

- With HANDLE (1) in OFF position, turn on WATER SUPPLIES (2) and check all connections for leaks. ➡
- Ensure that AERATOR (3) is tightened completely.
- Operate HANDLE (1) to allow water flow.

10 CHECK DRAIN CONNECTIONS

- Operate POP-UP KNOB (5) and fill Sink with water. Check that DRAIN STOPPER (4) makes a good seal and retains water in Sink. If STOPPER (4) does not seal properly, please refer to "Troubleshooting Guide" in these instructions.
- Release POP-UP KNOB (5) down and check all drain connections and "P" trap for leaks. ➡ Tighten if necessary.

11 SERVICE

If Faucet Drips Proceed As Follows:

- Turn VALVE in OFF position.
- If faucet drips, operate handle several times from "off" to "on". Do not apply excessive force.
- Clogged CARTRIDGE INLETS may cause reduced flow in "full on" hot or cold. To clean inlets, first turn off water supply, then:
- Remove HANDLE (1), CAP (2) and CARTRIDGE (3).
- Clean CARTRIDGE INLETS and MANIFOLD.
- Reassemble CARTRIDGE (3), alternately tightening SCREWS (4). Replace CAP (2) and HANDLE (1). Check flow.

12 CARE INSTRUCTIONS:

DO: SIMPLY RINSE THE PRODUCT CLEAN WITH CLEAR WATER. DRY WITH A SOFT COTTON FLANNEL CLOTH.

DO NOT: DO NOT CLEAN THE PRODUCT WITH SOAPS, ACID, POLISH, ABRASIVES, HARSH CLEANERS, OR A CLOTH WITH A COARSE SURFACE.

M968797 Rev. 1.8

Speed Connect™ Drain Troubleshooting Guide

If sink does not hold water even though Stopper is in the "down" position:

- Follow CABLE ADJUSTMENT PROCEDURE.

If Stopper does not raise up fully or sink drains too slowly:

- Follow CABLE ADJUSTMENT PROCEDURE.

If you need to remove the Stopper:

- Follow STOPPER REMOVAL PROCEDURE.

If you would like the ability to remove your Stopper simply by lifting it out of the drain:

- Follow STOPPER INSTALLATION PROCEDURE for "Unlocked" mode.

CABLE ADJUSTMENT PROCEDURE

- Disconnect the Cable from the Drain by threading the Cable Connector (1) counter-clockwise. Fig. A.
- Look at the area on the Drain Body where the Cable was attached and locate the component labeled as "Cam" in the illustration. Fig. B.
- Use a small screwdriver to rotate the Cam in the clockwise direction as far as it will go. At this point the Stopper should be in the UP position. Fig. B, C.
- Push DOWN on the Lift-Knob to make sure it is fully down. Fig. C.
- Re-attach the Cable to the Drain Body Connection (2) by threading the Cable Connector (1) clockwise onto the Drain Body Connection (2) and hand-tighten. Fig. A.

STOPPER REMOVAL PROCEDURE

- Disconnect the Cable from the Drain by threading the Cable Connector (1) counter-clockwise. Fig. A.
- Look at the area on the Drain Body where the Cable was attached and locate the component labeled as "Cam" and "Cam Cap" in the illustration. Fig. B.
- Use fingers or small screwdriver under either side of the Cam Cap to pry it out from the Drain. Fig. D.
- Remove the Cam by pulling it straight out while wiggling gently to loosen the Rubber Seal. Fig. E.
- The Stopper can now be removed by lifting it out of the Drain. Fig. F.

M968797 Rev. 1.8

STOPPER INSTALLATION PROCEDURE

The Stopper can be installed two ways, "Locked" Mode (Stopper cannot be removed) or "Unlock" Mode (Stopper is removable).

Locked Mode:

- Look at the Plastic Loop at the bottom of the Stopper and notice that the Loop is on one side of the Stopper. **Fig. G.**
- To install the stopper in "Locked" mode, insert the Stopper into the Drain so that the Plastic Loop is facing toward the rear of the Sink and the American Standard logo is facing front. Rotate Stopper slightly if necessary so that the Stopper slides all the way down. **Fig. G.**
- Re-install the Cam into the Drain, rotating the Cam if necessary to make sure it is fully inserted. **Fig. J.**
- Re-install the Cam Cap, making sure the guide teeth are facing outward. If the Cam Cap does not "snap" into place, then rotate the Cam to make sure it is fully inserted. **Fig. K.**
- Re-attach Cable. See "CABLE ADJUSTMENT PROCEDURE" in Troubleshooting Guide to complete installation. Stopper will be in "Locked" mode and not be removable.

locked Mode

Unlocked Mode:

- Look at the Plastic Loop at the bottom of the Stopper and notice that the Loop is on one side of the Stopper. **Fig. H.**
- To install the stopper in "Unlocked" mode, insert the Stopper into the Drain so that the Plastic Loop is facing toward the front of the Sink and the American Standard logo is facing rear. Rotate Stopper slightly if necessary so that the Stopper slides all the way down. **Fig. H.**
- Re-install the Cam into the Drain, rotating the Cam if necessary to make sure it is fully inserted. **Fig. J.**
- Re-install the Cam Cap, making sure the guide teeth are facing outward. If the Cam Cap does not "snap" into place, then rotate the Cam to make sure it is fully inserted. **Fig. K.**
- Re-attach Cable. See "CABLE ADJUSTMENT PROCEDURE" in "Troubleshooting Guide" to complete installation. Stopper will be in "Unlocked" mode and removable.

Unlocked Mode

TIPS FOR REMOVING YOUR OLD DRAIN:

Most existing drains can be removed quickly and easily with only a pair of channel-lock pliers or a wrench. However, there may be situations where it is difficult to remove your old drain or determine how the drain is disassembled. Depending upon the existing Drain in your sink, it is either removed from above or below the sink. The illustrations below show some typical drain installations and how they are disassembled from the sink.

The following tips can help with some of the more common challenges in drain removal:

- Loosen nuts on P-Trap using channel locks. Suggest spraying nuts with spray lubricant to loosen any corrosion or debris that may have built up. Remove P-Trap half from Tailpiece. Use bucket to catch any residual water in P-trap.
- Unthread Pivot Rod Nut from Drain Body and remove. Pull Stopper out from Drain Body.

For Drains that are removed from below Sink:

- Loosen Mounting Nut as far down as it will go. Push Drain Body up into Sink and unthread Flange from Drain Body. Remove Drain Body from below sink.

For Drains that are removed from above Sink:

- Unthread Tailpiece from Drain Body.
- Loosen and remove Mounting Nut and Gasket on Drain Body using channel locks. Suggest spraying nut with spray lubricant to loosen any corrosion or debris that may have built up. Push Drain Body up into the Sink and remove.

Note: If Drain body rotates while loosening Mounting Nut, insert a screw driver into overflow hole to prevent Drain Body from rotating while Mounting Nut is removed.

Tous les robinets American Standard font l'objet de tests d'eau à notre usine. Il est possible qu'il y ait encore de l'eau dans le robinet lors de l'expédition.

CARE INSTRUCTIONS

To keep your new faucet looking beautiful, please follow these simple care instructions.

- DO:**
1. Simply rinse the faucet clean with clear water.
 2. Dry the faucet with a soft cotton cloth.
- DO NOT:**
1. Do not use any abrasive cleaners, cloths, or paper towels.
 2. Do not use any cleaning agents containing acids, polish abrasives, or harsh cleaners or soaps.

Regular and routine cleaning will reduce the need for heavy cleaning and polishing. If heavy cleaning is required, the following procedures are recommended:

- DO:**
1. Remove as much surface dirt and film using clear water and soft cotton cloth (as described above).
 2. Use any of the following to remove tough surface film and build-up:
 - Mild liquid detergents
 - Clear liquid glass cleaners
 - Non-acidic, non-abrasive gentle liquid or full dissolved powder cleansers mixed according to manufacturer's directions.
 - Non-abrasive liquid polishers
 3. Once clean, rinse faucet again with clear water to thoroughly remove cleaner or polish and blot dry with soft cotton cloth.

INSTRUCCIONES DE MANTENIMIENTO

Para mantener su grifo en buenas condiciones, siga las siguientes instrucciones.

- DEBE:**
1. Enjuague el grifo con agua limpia.
 2. Seque el grifo con una toalla de algodón.
- NO DEBE:**
1. Utilizar toallas o papeles de superficie áspera.
 2. Utilizar limpiadores conteniendo ácidos o abrasivos.

Limpiando con regularidad el grifo se evita la necesidad de una limpieza más minuciosa. Si limpiera con algo más fuerte es necesario.

- DEBE:**
1. Quitar la suciedad de la superficie usando agua limpia y toalla de algodón.
 2. Para suciedad bien apegada proceder de la siguiente manera:
 - Limpador suave.
 - Líquido limpiador para vidrio.
 - Limpador sin ácidos y abrasivos o limpiadores de polvo mezclado según las instrucciones del producto.
 3. Una vez limpio, enjuagar el grifo con agua limpia para remover los limpiadores, después secar con una toalla suave de algodón.

INSTRUCTIONS D'ENTRETIEN

Pour conserver l'aspect esthétique de ce robinet, effectuer l'entretien conformément aux instructions suivantes:

- À FAIRE:**
1. Rincer simplement le robinet avec de l'eau propre pour le nettoyer.
 2. Essuyer le robinet avec un chiffon de coton doux.

NE PAS FAIRE:

1. Ne pas utiliser de produit de nettoyage abrasif, tissu abrasif ou serviette de papier.
2. Ne pas utiliser un agent de nettoyage quelconque contenant des composés acides, produits de polissage abrasifs, ou savons ou produits de nettoyage rigoureux.

Un entretien de routine à intervalle régulier réduit la nécessité d'opérations de nettoyage énergique et de polissage. Si un nettoyage important est nécessaire, employer la méthode ci-dessous.

- À FAIRE:**
1. Utiliser un chiffon de coton doux et de l'eau propre pour enlever la plus grande partie des saletés et du film superficiel (comme on l'a décrit ci-dessus).
 2. Utiliser l'un des produits ci-dessous pour éliminer les saletés tenaces:
 - Détergent liquide doux
 - Produit liquide de nettoyage du verre (transparent)
 - Produit de nettoyage liquide doux et non abrasif non acide, ou produit de nettoyage conformément aux instructions du fabricant
 - Produit de polissage liquide non abrasif.
 3. Lorsque le robinet est propre, rincer de nouveau le robinet avec de l'eau propre pour enlever complètement tout résidu de produit de polissage ou de nettoyage, sécher par essuyage avec un chiffon de coton doux.

**LIMITED
LIFETIME FUNCTION AND
FINISH WARRANTY**

American Standard warrants this product to be free from defects in materials or workmanship for as long as the original consumer purchaser owns this product.

American Standard will provide free of charge, at its sole option, replacement part(s) or product (or if no longer available, a comparable product) to replace those which have proven defective in materials or workmanship.

Proof of purchase (original sales receipt) from the original consumer purchaser must be made available to American Standard for all warranty claims. This warranty is non transferable. It does not apply in the event of product damage due to the use of other than genuine American Standard replacement parts, installation error, abuse, misuse or improper care and maintenance (whether performed by a plumber, contractor, service provider or member of the purchaser's household). The warranty excludes damage due to aggressive air or water conditions, or harsh or abrasive cleaners and/or materials. This warranty excludes all industrial, commercial and business usage, whose purchasers are hereby extended a two year limited warranty (with the exception of solenoid valves and other electronic components which carry a one year warranty) applying to all other terms of this warranty except duration. This warranty does not cover labor charges incurred and/or damage sustained in installation, repair or replacement, nor incidental or consequential damages. This warranty is applicable only to American Standard faucets manufactured after June 1, 1996 and installed in the United States, Mexico and/or Canada.

THIS WARRANTY IS EXCLUSIVELY IN LIEU OF ALL OTHER WARRANTIES, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

This warranty gives the original consumer purchaser of an American Standard faucet specific legal rights which may vary from state to state or from province to province. In some states or provinces the exclusion or limitation of incidental or consequential damages is not allowed, so those exclusions may not apply to you.

**GARANTÍA LIMITADA DE POR
VIDA EN FUNCION
Y ACABADO**

American Standard garantiza este producto contra cualquier defecto en materiales o mano de obra durante el tiempo que el comprador original posea este producto.

American Standard proveerá libre de cargo, como única opción, piezas de repuesto o un nuevo producto (en caso de que el producto original esté descontinuado, se sustituirá por un producto similar) para reemplazar aquellos accesorios que tengan fallas en materiales o mano de obra.

El comprobante de compra (recibo de compra) del consumidor original debe mostrarse a American Standard para hacer válida la garantía. Esta garantía es intransferible. La garantía no es válida en caso de daños causados por partes de repuesto utilizadas que no sean originales de American Standard, por errores de instalación, abuso, mal uso o mantenimiento inadecuado (ya sea si lo realizó un plomero, un contratista, un proveedor de servicio o algún miembro de la familia del consumidor). La garantía excluye daños causados por ambientes corrosivos, por las condiciones del agua o por limpiadores y/o materiales abrasivos. Esta garantía excluye los usos industriales, comerciales y de negocios, a cuyos consumidores por medio de la presente se les extiende otra garantía limitada por dos años, (con excepción de las válvulas solenoides y otros componentes electrónicos los cuales tienen un año de garantía) en la cual aplican todos los términos de esta misma, exceptuando lo referente al tiempo de duración. Esta garantía no cubre cargos incurridos por mano de obra y/o daños sufridos en la instalación, reparación o reemplazo, ni daños incidentales o consecuentes. Esta garantía es aplicable solo a mezcladoras de American Standard manufacturadas después del 1 de junio de 1996 e instaladas en los Estados Unidos, México y/o Canadá.

ESTA GARANTÍA SUPRIME A CUALQUIER OTRA, INCLUYENDO CUALQUIER GARANTÍA IMPLICADA EN MERCADERO O CONVENIENCIA PARA UN PROPOSITO EN PARTICULAR.

Esta garantía ofrece al consumidor original de la mezcladora American Standard derechos legales específicos los cuales pueden variar de estado a estado o de provincia en provincia. En algunos estados o provincias la exclusión o limitación de daños incidentales o consecuentes no son permitidos, por lo tanto, estas exclusiones tal vez no aplican para usted.

**GARANTIE À VIE LIMITÉE
SUR LE FONCTIONNEMENT
ET LES FINIS**

American-Standard garantit ce produit contre tout défaut dans les matériaux ou la fabrication, aussi longtemps que le consommateur acheteur original sera propriétaire de ce produit.

American-Standard fournira sans frais et à son choix, une ou des pièces ou un produit (ou, s'il n'est plus en vente, un produit comparable) en remplacement de ceux dont les matériaux ou la fabrication se seraient avérés défectueux.

Une preuve d'achat (facture d'achat originale) du consommateur acheteur original devra accompagner toute réclamation faite à American-Standard. Cette garantie n'est pas transférable. Elle ne s'applique pas dans l'éventualité de dommages causés au produit suite à l'utilisation de pièces de rechange autres que les pièces originales American-Standard, une erreur d'installation, l'abus, l'utilisation incorrecte ou l'entretien et le service incorrects (qu'ils soient effectués par un plombier, un entrepreneur, une entreprise de service ou un membre de la famille de l'acheteur). La garantie exclut les dommages causés par des conditions d'air ou d'eau agressantes, ou des nettoyants et/ou des matériaux rugueux ou abrasifs. Cette garantie exclut tout usage industriel, commercial et d'affaires, lesquels acquéreurs reçoivent par la présente une garantie limitée de deux ans - à l'exception des solénoïdes et autres composantes électroniques qui portent une garantie d'un an - à laquelle tous les termes de cette garantie s'appliquent, sauf la durée. Cette garantie ne couvre pas les frais de main-d'oeuvre engagés et/ou les dommages survenus lors de l'installation, la réparation ou le remplacement, ni les dommages accidentels ou indirects. Cette garantie s'applique seulement sur les robinetteries American-Standard fabriquées après le 1er juin 1996 et installées aux Etats-Unis, Mexico et au Canada.

CETTE GARANTIE EST OFFERTE EXCLUSIVEMENT EN LIEU ET PLACE DE TOUTE AUTRE GARANTIE, Y COMPRIS LES GARANTIES DE QUALITÉ MARCHANDE OU APTITUDE DU PRODUIT UNE APPLICATION PARTICULIÈRE.

Cette garantie confère au consommateur acheteur original d'une robinetterie American-Standard des droits légaux spécifiques qui peuvent varier d'un état à l'autre ou d'une province à l'autre. Dans certains états ou provinces, l'exclusion ou la limitation des dommages accidentels ou indirects n'est pas permise; ces exclusions peuvent donc ne pas s'appliquer à vous.
